SUPPLEMENTAL DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In second occurrence of claim number 18, in line 1, delete "18" and add --19--.

In claim 19, line 1, delete "19" and add --20--.

In claim 20, line 1, delete "20" and add --21--.

In other words: second claim 18 now becomes claim 19; claim 19 now becomes claim 20; and claim 20 now becomes claim 21.

Allowable Subject Matter

1. Claims 1-21 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1-21 are allowable since certain key features of the claimed invention are not taught or fairly suggested by the prior art. In claim 1, "generating a first signal that represents the first and second appearances in case of the summation of a first appearing time duration, a second appearing time duration and a time span between the two appearing time durations being smaller than a first reference time". In claims 8 and 16, "the gesture unit also computes the summation of

the first appearing time duration, the second appearing time duration and the time span between the two appearing time durations and compares this result with the first reference time; and if the sum is smaller than the first reference time value, then produce the first signal that presents the first and second appearance". The closest prior art of record, singularly or in combination, fails to anticipate or render the above underlined limitations obvious..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ricardo L. Osorio whose telephone number is 571-272-7676.
